DETAILED ACTION

Claim Rejections - 35 USC § 103

I. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

A. Claims 1-7 and 9-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Grant-Acquah, US No. 6,237,919 ("Grant").

i. Grant discloses a cylinder head gasket (FIG. 1) comprising a body, being generally flat and having a first surface, a second surface, and at least one cylinder hole (24) therethrough; an encapsulant (30) generally coating the first surface, the second surface and a perimeter of the at least one cylinder hole; and a light colored pigment (i.e. up to 10 parts by weight) intermixed with the encapsulant to thereby create a light color encapsulant.

ii. Grant discloses the claimed invention except for the particular brightness. It would have been obvious to one of ordinary skill in the art at the time the invention was made to make the gasket of the particular brightness, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416.

Response to Arguments

II. Examiner acknowledges the content of the interview referred to in applicant's remarks of Mar. 29, 2005. Examiner has change the basis and analysis of rejection. Although Examiner agrees that there was no motivation to combine the teachings of Grant and Kawanaka. Selecting a particular brightness is a matter of material selection and therefore is obvious. The Grant reference has now been applied as the sole reference in the 103 rejection. The action is once again made non-final.
